

Sipp Mack

Sipp Mack is located in Hunawihr, a picturesque village nestled on the Vosges foothills between Riquewihr and Ribeauvillé.

The family winery, found at the top of the town, is now run by Jacques Sipp and his wife, Laura. Nine generations of Jacques' family have made wine on this site since 1698.

"Sipp Mack" is the fruit of the union of two local winemaking families. The winery was formed in 1959, with the marriage of François Sipp of Ribeauvillé and Marie Louise Mack of Hunawihr. In 1983, following his studies in viticulture, enology and business, and two years' work with farms and wineries in the United States, Jacques returned to Alsace to join his parents at the family estate. He brought Laura, a graduate of the University of California Davis Viticulture and Enology program, back to France with him in 1985.

Jacques and Laura brought new vision to the vineyard and winery operations. Their desire to offer consistent top quality wines that reflect the land that they come from led them to combine Alsatian traditions with modern technology while protecting the environment.
