

CHÂTEAU LAFITE ROTHSCCHILD 1998

VINEYARD ATTRIBUTES

Appellation : AOC Pauillac, Bordeaux, France

Pauillac is located on the left bank of the Gironde estuary, approximately 40km North of Bordeaux. With the tempering influence of the estuary and a great diversity of soils originated from both the Massif Central and the Pyrenees, Pauillac boasts exceptional climatic and geological conditions to make outstanding wines.

Terroir : Chateau Lafite Rothschild is located to the north of the appellation, bordering Saint Estèphe. Lafite's best terroirs stretch on the 50ha Plateau des Carruades to the west of the Château. This plateau, which is the highest point of the Pauillac appellation, is well-drained and enjoys optimal sun exposure. Its clayey gravel soils offer excellent water regulating abilities, and provide optimal ripening conditions for the Cabernet Sauvignon.

Some 4.5 ha planted in the neighbouring Saint Estephe appellation, count amongst the oldest vines of the property and provide year after year grapes of outstanding quality for the Grand Vin.

VINTAGE SUMMARY

A brilliant vintage ! The first three months of the year were marked by quite high temperatures and not too much rain. The month of July wasn't very sunny and almost fresh and dry and seemed to block the vines. First grappes appeared on 22nd July. August was surprisingly hot and gave precocious vines. As a consequence of a dry summer, vine growth stops early. In mid-September our analyses reach exceptional levels, we are very close to the legendary vintage.

The harvest took place from September 24th to October 10th.

The humidity at the end of September accelerated the end of maturity. The evolution of the grappes was very rapid from then on and it became obvious that the harvest had to take place very quickly.

WINE MAKING SCHEME

In order to reveal the magic of Lafite's terroir, every step of the wine elaboration is carried out with the greatest precision. Depending of their provenance and level of ripeness, grapes will be transferred into either wooden, stainless steel or concrete vats. Alcoholic fermentation is conducted at controlled temperature, with regular pumping over to gently release all the phenolic compounds in the grapes. Each vat is carefully monitored and tasted daily in order to determine the best racking time. The maceration period varies for each tank but is around 20 days in total.

After malolactic fermentation wines are transferred into French oak barrels. Lafite has its own cooperage in Pauillac, la Tonnellerie des Domaines, which contributes to its unique style. The selection for the grand vin is made in March, once the wines have settled and start revealing their full potential. Every barrel is tasted individually and only the best ones are set aside for the final blend.

Once blended, the wine is aged for a further 20 months in barrels, primarily of new oak.

TASTING NOTES

The wine was made with four grape varieties, which is relatively rare (Cabernet Franc and Petit Verdot hardly ever appear together in the grand vin).

This vintage has a pleasantly woody, spicy nose; the palate is structured and well balanced, gradually increasing in power with great elegance; the finish is long and characterized by very red, ripe fruit.

TECHNICAL INFORMATION

Varietals : Cabernet sauvignon 81%, Merlot 19%

Alcohol content : 13 % vol.

Total acidity : 3.5 g/l
