

Château Deson

AOC Bordeaux - 2022 - **SWEET WHITE**

PRESENTATION

"I took over the estate in 1995 along with my sister Sophie, making us the fourth generation! We have always been members of the Landerrouat winery cooperative, of which our grandfather was the president back in the 70s. We have preserved old vines from the 1930s, which allow us to produce well-structured wines, and have switched to sustainable farming practices over the past five years. I have always lived here and watched my parents and grandparents work the vineyard and make a living from it. We are very much a family-oriented household, living next door to each other—it's like a small village. Our houses date back to the early 20th century, all built in the traditional Bordeaux style."
