

# VIGNERONS *mais autrement*

BORDEAUX · SUD-OUEST

We stand out by valuing and marketing our wines in a decidedly modern way. While deeply rooted in our heritage, we are determined to shape the future of the wine world. With the expertise of 1000 winegrowers, we proudly cultivate 15000ha, producing diverse, remarkable wines. With distinctive terroirs and grape varieties, and a robust industrial infrastructure, we create a collection of cuvées that is both rich and suited to the demands of French and International markets. Always on the lookout for new trends, we introduced a range of non-alcoholic wines to meet new consumer expectations.
