PRESENTATION

Located at the gates of Castelnau-de-Guers, near Pézenas, Domaine Muret has been managed by Christophe and Béatrice Muret for over 20 years. It is part of Domaine de Castelnau, whose history dates back to the 13th century. The proximity to the Thau lagoon brings a maritime influence that moderates summer temperatures and favors the aromatic freshness of the wines. The vineyard, planted on limestone and clay-limestone soils, is dedicated to a wide variety of grape varieties, including Chardonnay, Viognier, Pinot Noir, and especially Picpoul, emblematic of the region. Vinifications focus on preserving the fruit, with short macerations and aging in stainless steel tanks or barrels for certain cuvées. Its particularity? A remarkable balance between the historical heritage of the terroir and a modern approach focused on the freshness and elegance of the wines.
