PRESENTATION

Located in Beaumes-de-Venise, Domaine De Fenouillet is renowned for its expertise in the production of Muscats and characterful red wines. This family estate, cultivating its vines organically, highlights ancestral know-how combined with modern techniques. The reds, made from Grenache, Syrah, and Mourvèdre, display beautiful intensity, with notes of black fruits, spices, and balanced tannic structure. The estate's Muscats, emblematic of the region, reveal an exuberant aromatic palette, between candied citrus and honey, with great freshness on the palate. An essential estate for discovering the richness of southern Rhône wines.

VARIETALS

Grenache, Syrah, Carignan

TERROIR

The vines are planted on the stony hillsides of Saint-Hippolyte, a terroir that brings structure, freshness, and mineral tension to the wine.

IN THE VINEYARD

The estate is cultivated using certified organic farming methods, with a focus on biodiversity, soil vitality, and minimal intervention.

HARVEST

Grapes are harvested manually at full ripeness to preserve aromatic intensity and balance.

WINEMAKING

Key stages include gentle pressing and destemming, followed by alcoholic and malolactic fermentation in tanks or barrels. Indigenous yeasts are used, and fermentation temperatures are carefully controlled to preserve freshness and aromatic precision. Each step is designed to respect the integrity of the fruit and the character of the terroir.

AGEING

Ageing is carried out in a combination of large oak vats (foudres), barrels, and egg-shaped concrete tanks. This diversity of vessels allows for a refined integration of tannins and aromatic complexity.

SERVING

Serving temperature: 14-16°C

AGEING POTENTIAL
