THE WINE

VARIETALS: Merlot

WINEMAKING / AGEING: In crafting the Black & Wine Blanc de Noirs, the meticulous vinification process is central to its character. Harvested from premium Merlot vines, the grapes undergo gentle pressing, ensuring only the purest juice is extracted, thus preserving its pale golden hue. This process, often termed 'bleeding' or 'saignée', embodies the precision required to create such a distinctive Blanc de Noirs.

TASTING

On the palate, the wine reveals layers of crisp green apple, subtle hints of raspberry, and a touch of brioche, all underlined by a minerality that resonates with the Merlot's terroir.

The finish is long, with delicate notes of red berries and citrus zest.
