PRESENTATION

Situated in the heart of the world's largest wine-growing region, the Vicomté vineyards cover more than 7,500 hectares. It stretches over undulating terrain fed by the sediments of the Hérault river, as well as more chalky soils such as the terraces and half-slopes of the Villefranchois region. Benefiting from a Mediterranean climate, dry and arid in summer and mild in winter, we harvest the best grape varieties under HVE charter.
