

Emma M. LOUISE

Maison Emma M. Louise is a new generation of wines, taking a French family's century old tradition of winemaking and bringing it into the homes of the 21st Century.

We feel lucky France is home to some of the world's most renowned vineyards where the scenery and history rival the beauty of the wine. But over time, these great names like Reims, Epernay, Châteauneuf du Pape, Saint Emilion, Nuit Saint Georges, Chablis, Sancerre have somehow lost touch with our modern lives. In opposition to this general trend, from day one, we wished our wines to combine the style, quality and stories of the past with today's lifestyle.

History

Our wine house, Maison Emma M Louise is inspired by family stories, told around the table.

Our parents and grandparents have woven together tales of life in

Champagne and Provence in the 1920 s, the vineyards of the South of France in

the 1960 s and a love of the culture of French winemaking.

The birth of our daughter in 2006 made us realise that we want her to grow up loving the classic French wines, but we knew in the modern lifestyle things would be different.
