PRESENTATION

Located in the Minervois region, Domaine Des Homs cultivates an exceptional terroir shaped by Mediterranean influences and temperate climates. This family-run estate, certified organic, works with emblematic grape varieties such as Syrah, Grenache, and Mourvèdre. The vines are planted on clay-limestone and stony soils and are carefully tended to preserve the natural balance of the land. In the cellar, vinifications are carried out with precision, favoring gentle extractions and long barrel ageing. The estate's red wines reveal aromas of black fruits, spices, and garrigue, with a generous mouthfeel and impressive length. A benchmark estate in Minervois for elegant and expressive wines.
