PRESENTATION

The viticultural history of the Girard family dates back more than five centuries in Savigny-lès-Beaune. Jean-Jacques Girard perpetuates this tradition by creating his own estate, continuing the work of seven generations before him. In 2008, his son Vincent Girard joined the estate, consolidating the family's identity. Today, the estate covers 15 hectares and produces about 100,000 bottles per year. Viticulture is based on a sustainable approach and a deep respect for the terroir, combining traditional methods and technical innovations. The wines, vinified with precision and aged in oak barrels, express the typicity of the great terroirs of Savigny-lès-Beaune and neighboring appellations. They offer superb complexity, combining structure, finesse, and remarkable aging potential.

VARIETAL

Pinot Noir 100%

TERROIR

Clay-limestone soil located on the slopes of Savigny-lès-Beaune, offering Pinot Noir a refined fruit expression and elegant structure.

IN THE VINEYARD

The vineyard is managed using sustainable viticulture practices. Regular soil work encourages root development and limits chemical inputs. Yields are carefully controlled to ensure aromatic concentration. Harvesting is done by hand, with selective sorting directly in the vineyard.

HARVEST

Manual harvest with rigorous sorting in the vineyard, ensuring optimal grape quality upon arrival at the winery.

WINEMAKING

Fermentation takes place in open vats with 100% destemmed grapes. A short cold maceration precedes traditional alcoholic fermentation, conducted under temperature control to preserve fruit aromas and freshness.

AGEING

Aged in oak barrels for approximately 12 to 15 months, with a moderate proportion of new oak depending on the vintage.

SERVING

Serving temperature: 14 to 16°C

AGEING POTENTIAL

3 to 5 years
