DOMAINE DE VILLENEUVE

AOP Languedoc Pic-Saint-Loup
Red

PRESENTATION

Located in Claret, in Hérault, at the heart of Languedoc, Domaine De Villeneuve is a family estate that highlights all the richness and diversity of Pic Saint-Loup wines. The terroir, composed of limestone soils and scree, benefits from a Mediterranean climate tempered by the influence of the surrounding mountains. The estate practices integrated pest management, favoring manual work and precise vinifications to preserve the authenticity of the fruit. The reds, made from Syrah, Grenache, and Mourvèdre, are powerful and elegant, with notes of black fruits, pepper, and garrigue. The more confidential whites charm with their freshness and balance. An emblematic estate of Pic Saint-Loup, ideal for discovering deep and expressive wines.

VARIETALS

Grenache, Mourvèdre, Syrah

LOCATION

The estate is made up of small vineyard plots, most of them under 1 hectare, surrounded by garrigue and woodland.

Age of vines: 40 years old

TERROIR

A unique natural amphitheater composed of south/southeast-facing clay-limestone hillsides.

IN THE VINEYARD

Sustainable farming methods in place, currently undergoing organic conversion since 2022.

HARVEST

Half of the harvest is done manually.

WINEMAKING

After a first sorting in the vineyard, the grapes are brought to the cellar. The Syrah bunches are vinified using whole-cluster maceration. This technique preserves the integrity of the berries and avoids crushing during vatting. Maceration lasts around 14 days. Punch-downs and pump-overs are carried out based on tasting, to extract color, tannins, and aromas.

AGEING

Aged first in vats, then in new 225-liter French oak barrels for 24 months.

SERVING

Serving temperature: 16°C–18°C

AGEING POTENTIAL

5 to 10 years

TASTING

Spicy nose with notes of anise, mint, nutmeg, and cinnamon. On the palate, the wine is firm and structured by fine tannins, offering both density and length. A great wine for ageing.

VISUAL APPEARANCE

Deep ruby with violet reflections.
