PRESENTATION

"Grain d'Amour" is a sweet rosé made of black muscat, with only 10.5% ABV, created in 2000. Each Summer, discover the limited edition sleeve bottle.

Muscat of Hamburg (or black Muscat), is a grape variety rarely used in winemaking, giving a sweet and original touch. In the summer of 2015, the first "limited edition" was launched: a completely redesigned bottle featuring a girly, summery theme. Since then, every summer, consumers discover a brand-new design and add it to their collection, always with a pop and colorful flair !
