Loire, Patrick Girault, AOC Sancerre, Blanc

AOC Sancerre, Vallée de la Loire et Centre, France

The planted area of Domaine Girault currently totals 12 ha, spread over the renowned “Grand Chemarin”, “Petit Chemarin” and “Chêne Marchand” hillsides.

The estate is divided into 38 parcels of Appellation d’Origine Contrôlée Sancerre (AOC):

31 plots are planted with Sauvignon Blanc

7 plots are planted with Pinot Noir.

Terroirs and vines

Our terroirs are highly diversified throughout the estate. Our soils are 50% clay-limestone, 19% clay, 25% limestone and 6% flint clay.

PRESENTATION

Domaine Girault wines are made from blends of these different terroirs, allowing them to express their aromatic complexity and further characterize their minerality.

TERROIR

Produced from Sauvignon vines averaging 35 years of age, grown on clay-limestone (60%) and limestone (40%) soils.

IN THE VINEYARD

Ridging and hoeing. Single Guyot pruning.

Planting density 7,000 to 8,000 vines per hectare.

All these plots are cultivated in a sustainable way to respect the environment as much as possible.

WINEMAKING

After harvesting, the grapes are transported to the winery. The pneumatic presses are filled using a conveyor belt to limit the amount of grape crushing. After a minimum 48-hour cold settling period (8°), the musts are fermented in temperature-controlled vats.

Fermentation lasts about 40 days.

AGEING

The wines are aged on fine lees over winter, then racked in April.

VARIETAL
