#### WINEMAKING

---

After direct pressing, the grapes are settled to obtain a very clear juice. Vinification, similar to that of a white wine, takes place in tanks with alcoholic fermentation at a low temperature (15°C). For this Cinsault, there is no malolactic fermentation.

#### TASTING

---

A lovely pale pink color, this wine is well-balanced, fresh, lively and round, with fruity red fruit aromas.

#### FOOD PAIRINGS

---

Serve chilled at 8°C.  
Perfect as an aperitif, with grilled meats, salads, stuffed vegetables or pizza.
