

CHAMPAGNE

Champagne Salon 1921

THE VINTAGE

Catastrophic black frosts on 15th/16th April, with the thermometer dropping to -7°C the first night with an occasional -9°C the following day, while temperatures varied between 24°C and 28°C from 11th to 14th April. Estimated losses comparable to 1873 - about 80% of the crop. However conditions more favourable to the development of the vine during the campaign. Perfect flowering. Harvesting went very quickly. Exceptional quality.
