PRESENTATION

This yellow wine from the Château-Chalon vineyards is a unique product in the world because of its grape variety, the Savagnin, its method of vinification, its longevity and its complexity.

IN THE VINEYARD

Concerned about respecting the environment, this passionate winegrower is determined to use integrated farming methods in his various plots.

AGEING

Its transformation from white wine to yellow wine will last a minimum of six years in an airy barrels. At the end of this time the wine will have lost its initial volume and a litre of Savagnin will give an average of 62 cl of Vin Jaune. This loss is called "la part des anges" and explains the capacity (62cl) of the bottle called Clavelin.

VARIETAL

Savagnin 100%

SERVING

To be drunk between 12° and 14° (54 to 58°F).

AGEING POTENTIAL

Enjoy all year long, 2 to 3 years, 5 years, 5 to 10 years

TASTING

Frank and subtle, the nose declines spices (cinnamon, nutmeg), anise and fennel, undergrowth and mushrooms. A nice journey before discovering a structured matter, in which the walnut returns discreetly but elegantly.

FOOD PAIRINGS

Château Chalon is a very long-keeping wine, which can age for a century! It goes well with cheese from the Jura, but also with fish and poultry.

Perfect match : Chicken risotto deglazed with Vin Jaune
