THE VINTAGE

Early ripening and well managed yields made 2015 a successful vintage! After a very mild winter, spring continued to be very clement and easy. The warmer months of May and June encouraged vine growth. A July heat wave (often more than 40°C) with no rain slowed the vegetative cycle considerably. Happily, in mid August, the rain fell and permitted the vines to grow and the grapes to ripen. By end of August, the vines were in perfect condition. The weeks before harvest were sunny with cool nights and light showers. The grapes matured perfectly.

SITUATION

The Osterberg Grand Cru slopes face East -South East at an altitude of 250m to 350m.

TERROIR

This terroir is stony clay, calcareous marl soil which enjoys perfect sun expositions.
