

Haute Grille 2024

AOC Médoc, Bordeaux, France

The Grid of Dreams

PRESENTATION

In the 19th century, a winegrower in the Médoc region had a tall wrought iron gate erected around his finest plots. It was said to protect not only the vines, but also the dream of a unique wine, born of the sun, the wind, and the gravelly soil. Today, "Haute Grille" continues this legend: a wine that carries within it the soul of a terroir and the mystery of a story never quite told.

A heritage to be savored, glass after glass.
